

*Sub  
6/1  
BX*

1. (Twice Amended) A halogen-free, multilayered heat shrink film comprising (A) a core layer comprising a copolymer of ethylene or propylene with an alpha olefin containing from about 3 to about 12 carbon atoms, the core having an upper and lower surface, (B) a skin layer having an upper and a lower surface wherein the lower surface of the skin layer contacts the upper surface of the core layer, wherein the skin layer comprises a polyolefin or polyolefin blend and (C) a printable layer having an upper surface and lower surface, and comprising a blend of a polyolefin and an additive selected from the group consisting of ethylene vinyl acetate copolymer, ethylene methyl acrylate and acrylonitrile butadiene rubber, wherein the upper surface of the printable layer is in contact with the lower surface of the core layer, and wherein the shrinkage of the film is at least about 30%.

*Sub  
C  
B2*

11. (Twice Amended) A halogen-free, multilayered heat shrink film comprising (A) a core layer comprising a blend of (1) a copolymer of ethylene or propylene with an alpha olefin and (2) a homopolymer of an olefin, and having an upper and lower surface, (B) a skin layer on the upper surface of the core layer, wherein the skin layer comprises a polyolefin homopolymer or a blend of a polyolefin homopolymer and a copolymer of ethylene or propylene and an alpha olefin and (C) a printable layer having an upper surface and a lower surface wherein the upper surface of the printable layer is in contact with the lower surface of the core layer, wherein the printable layer comprises a blend of a polyolefin and an additive selected from the group consisting of ethylene vinyl acetate copolymer, ethylene methyl acrylate and acrylonitrile butadiene rubber, and wherein the shrinkage of the film is at least about 35%.

*Sub  
B3*

15. (Amended) The film of claim 11 wherein the polyolefin is a polypropylene or polyethylene and the additive is ethylene vinyl acetate.

*Sub  
6/1  
BX*

17. (Amended) An article encapsulated with a multilayer heat shrink film of claim 11.

The changes to claims 1, 11, 15 and 17 are shown in detail in the attached appendix.
